# CentriLogic Named a Major Player in IDC MarketScape Report on Canadian Datacenter Operations and Management Providers

**Toronto, ON – April 25, 2019** – CentriLogic, a global provider of managed IT solutions, today announced it has been recognized as a Major Player in the IDC MarketScape: Canadian Datacenter Operations and Management 2019 Vendor Assessment (Doc# CA44463419, April 2019).

The IDC MarketScape vendor assessment evaluated 16 Canadian providers of managed datacenter services, including outsourcing, managed hosting, co-location, and managed cloud services. This IDC MarketScape also built upon related datacenter services released over the past 5 years, covering public IaaS, private IaaS, hybrid IaaS, and datacenter operations and management services.

“Being recognized as a Major Player in the IDC MarketScape vendor assessment speaks to the investments we have made in extending our IT infrastructure footprint, developing our portfolio of services, and maximizing our customers’ business success,” says Robert Offley, President and CEO of CentriLogic. “We are seeing increased demand from mid-market and large enterprises who require a single vendor to help them execute end-to-end IT Transformation efforts. Augmenting our datacenter services portfolio with managed hosting, managed Public Cloud, and application management capabilities places CentriLogic in a strong position to satisfy this demand and simplify complex IT challenges for our customers.”

IDC has also recognized CentriLogic as a Major Player in previous IDC MarketScape reports:

The company's dedication to a client-centric philosophy has earned it the trust of some of the world's most innovative companies and visionaries. With regional headquarters in Canada, USA, and the United Kingdom, CentriLogic delivers solutions to clients worldwide.

## About IDC MarketScape

IDC MarketScape vendor assessment model is designed to provide an overview of the competitive fitness of ICT (information and communications technology) suppliers in a given market. The research methodology utilizes a rigorous scoring methodology based on both qualitative and quantitative criteria that results in a single graphical illustration of each vendor's position within a given market. IDC MarketScape provides a clear framework in which the product and service offerings, capabilities and strategies, and current and future market success factors of IT and telecommunications vendors can be meaningfully compared. The framework also provides technology buyers with a 360-degree assessment of the strengths and weaknesses of current and prospective vendors.
